**ISSUE:**

Cooperative Participation Agreement with Utah Department of Transportation (UDOT), Qwest Corporation and West Valley City.

**SYNOPSIS:**

Upon approval of this agreement, West Valley City would be entering into a three-party cooperative participation agreement with Qwest Corporation and the Utah Department of Transportation for the relocation of utilities involved in the construction of UDOT's Highway Project on 3500 South, from Bangerter Highway to 2700 West.

**BACKGROUND:**

As part of the UDOT Highway Project on 3500 South, and as requested by West Valley City, UDOT has agreed to bury the existing overhead utility lines. UDOT and Qwest Corporation are each paying one-half of the cost that it would take to simply relocate the poles. West Valley City is agreeing to pay the difference between what it would cost to relocate the poles, and to bury the overhead utility lines. The total cost to bury the utility lines is \$417,928.96, and the portion to be paid by West Valley City is 3.4% of that amount, or \$14,092.26. A similar agreement has already been executed with Rocky Mountain Power to bury their overhead facilities along this same project.

**RECOMMENDATION:**

Approval of the Cooperative Participation Agreement with UDOT and Qwest Corporation and authorize the Public Works Department to spend an amount not to exceed \$14,092.26.
